| PART II | DEPARTMENT OF HUMAN RESOURCES DEVELOPMENT | 7.550 |
|         | STATE OF HAWAII                           | 7.553 |
| .....   |   | 7.556 |

Minimum Qualification Specifications  
for the Classes:

LAND SURVEYOR I, II, III

**Basic Education Requirement**

Graduation from an accredited four (4) year college or university with a bachelor's degree in land surveying, geo-science, or engineering.

Excess work experience as described under the Experience Requirement below, or any other responsible administrative, professional or analytical work experience which provided knowledge, skills and abilities comparable to those acquired in four (4) years of successful study while completing a college or university curriculum leading to a baccalaureate degree in the majors described above, may be substituted on a year-for-year basis. To be acceptable, the experience must have been of such scope, level and quality as to assure the possession of comparable knowledge, skills and abilities.

The education or experience background must also demonstrate the ability to write clear and comprehensive reports and other documents, read and interpret complex written material, and solve complex problems logically and systematically.

**Experience Requirement**

Land Surveyor I - No experience required.

Land Surveyor II - One (1) year of professional land surveying experience.

Land Surveyor III - Two (2) years of professional land surveying experience.

**Substitution Allowed**

1. Successful completion of a course of study in engineering technology at an accredited community college and two (2) years of land surveying experience, which included the use of the theodolite, level, and electronic surveying devices (e.g., electronic distance meters, data collectors, and total stations), may be substituted for the Basic Education Requirement.
2. A master's degree in land surveying, geo-science or engineering from an accredited four (4) year college or university may be substituted for six (6) months of the Experience Requirement.

3. A valid license to practice as a professional Land Surveyor in the State of Hawaii may substitute for all of the Basic Education and Experience Requirements for the Land Surveyor I, II and III.

### **Quality of Experience**

Possession of the required number of years of experience will not in itself be accepted as proof of qualification for a position. The applicant's overall experience must have been of such scope and level of responsibility as to conclusively demonstrate that he/she has the ability to perform the duties of the position for which he/she is being considered.

### **Selective Certification**

Specialized knowledge, skills and abilities may be required to perform the duties of some positions. For such positions, Selective Certification Requirements may be established and certification may be restricted to eligibles who possess the pertinent experience and/or training required to perform the duties of the position.

Agencies requesting selective certification must show the connection between the kind of training and/or experience on which they wish to base selective certification and the duties of the position to be filled.

### **Tests**

Applicants may be required to qualify on an appropriate examination.

### **Physical and Medical Requirements**

Applicants must be able to perform the essential duties and responsibilities of the position effectively and safely, with or without reasonable accommodation.

-----

This is an amendment to the minimum qualification specifications for the classes LAND SURVEYOR I, II and III, which were approved on February 1, 2012.

DATE APPROVED: 1/22/16
